Site Plan (Enlarged)

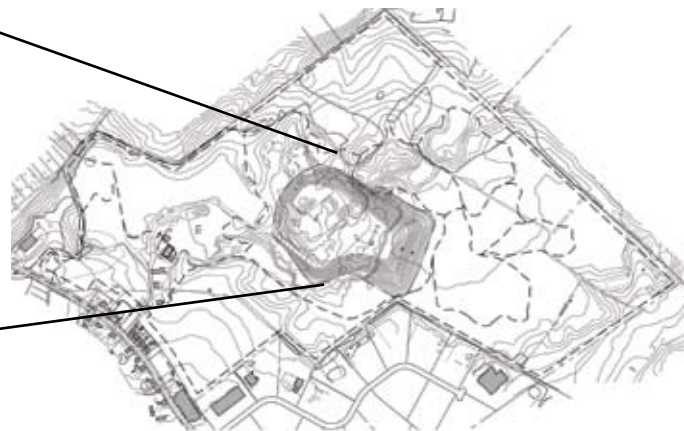

## Project Scope:

LAN provides environmental permitting, regulatory compliance and operating/mining permitting services for the North Church Sand & Gravel, Inc. plant in Sussex County, New Jersey. These services have included the preparation of a water allocation permit application and the preparation of applications for authorization to discharge under New Jersey Pollutant Discharge Elimination System (NJPDES) permits. LAN has also assisted the facility in understanding and complying with the requirements of the NJPDES and water allocation permits. Additionally, LAN has provided a liaison with the NJDEP when issues have arisen related to the environmental permits held by the North Church Sand & Gravel plant.

LAN's services have also included preparing applications for renewal of the operating/mining permits. LAN has represented North Church Sand & Gravel, Inc. at meetings with municipal officials regarding permit renewals. Additionally, LAN has performed periodic topographic surveys, as required by the operating/mining permits for the plant.

## Services Performed:

- Preparation of Water Allocation Permit Application
- Preparation of Requests for:
  - Authorization to discharge under NJPDES Permits
- Compliance Assistance for:
  - NJPDES & Water Allocation Permits
- SPPP Preparation & Soil Conservation Measures
- Operating/Minning Permit Renewal
- Topographic Surveys
- Soil Conservation Measures
